## LAY CHURCH CORNERSTONE SUNDAY

APPROPRIATE CEREMONIES TO BE HELD.

The cornerstone of the new Michelson Memorial Church will be laid next Sunday morning with appropriate ceremonies. The hour will be 10:30 o'clock—the usual church time. There will be a brief discourse by Rev. J. Herman Baughn, pastor, and responsive reading by the congregation, and close with the laying of the cornerstone.

This is the second time this particular stone has been used for this noble purpose. On Thanksgiving day, 1917, this stone, marking the corner of the original Michelson Memorial church, was laid. The cement that was to bind together the stone and the remainder of the structure was spread by Mr. Nels Michelson, the donor of the edifice that was to be completed as a memorial to his departed wife, who had been a member and a toiler in the local M. E. church for many years. He was assisted by Rev. Aaron Mitchell of the local M. E. church.

The following article, found in the cornerstone when workmen razed the ruins of the original church, gives some brief history of the Methodist Episcopal church. It reads as follows:

### GRAYLING M. E. CHURCH 1881-1917

Thirty six years ago the Methodist people purchased the present site and lot from Orlando M. Barnes and erected thereon this structure that has gone noble service for thirty-five years. The old church building was completed in 1882. It was built of good materials and has withstood the northern blasts and storms up to the present.

In the year 1915 the church people thought some change should be made to the building, as it proved at that time inadequate to meet the growing needs of the church, school and community.

A canvass of the city was made by a committee appointed with authority to solicit pledges from the people wherewith to erect a new and larger building. The result of the canvass did not warrant the new venture. However, nothing daunted, the public spirited Nels Michelson was impressed with the need, and the Lord put into his heart the ambition to stand by the enterprise, finally deciding to erect and leave a monument in Grayling as a practical memorial to the Nels Michelson family.

Plans for the new edifice were drawn by Lee Black of Lansing. The contract was let to Fred Bremer of Hemlock, Michigan. The work commenced September, 1917.

The cornerstone will be laid on Thanksgiving day, Nov. 9th, 1917, at

2:30 P. M., with ceremony. The new edifice will be built of brick, frame and concrete, the super structure brick veneer. The cornerstone is of granite with suitable inscription. The basement is roomy, and suitable for social enterprises. It has a large dining hall and games room, with other conveniences. The auditorium is constructed on the graded floor plan, with a parlor, vestries and organ loft to suit the purpose. The Sunday school is in the rear of the edifice.

The contract calls for the completion of the building by March 1st, 1918.

Contents of Stone.

Local paper, Detroit daily, current coin, picture post card of old building and of new, photos of M. and N. Michelson; this write-up with signatures of official board of M. E. church at this time, also the signature of the city president T. W. Hanson.

The cornerstone will be laid by Nels Michelson with ceremony by Pastor Rev. Aaron Mitchell, assisted by the Grayling band.

At the session of the annual conference held in Detroit in 1923, Rev. J. Herman Baughn of Saginaw was appointed to the charge at Grayling. He arrived about the first of October and the work of the church started on again in fine shape. But on November 14, the Church, which was dedicated on December 8, 1918, was completely destroyed by fire, together with the parsonage, which stood adjoining it. Work was at once begun on the cleaning up of the debris and when the cornerstone was taken from the wall it contained the following articles:

A copy of the Crawford Avalanche, and of the Detroit Free Press, a picture post card of old building erected in 1881. A synoptic article of the church in Grayling; a paper containing the signatures of the board of trustees, stewards, pastor, city president.

The official board set about and secured the firm of Brenner & Gay of Lansing, Mich., as architects and after much deliberation finally accepted the plans for the present structure. Bids for the general construction were asked for and the Litchfield Construction Co., of Alpena, were the successful bidders and began work, July, 1924.

The cornerstone will be laid, Sunday, September 7, at 10:30 a. m., with proper ceremony.

### "OUTDOORS" IS OUT.

The first (September) number of the new national magazine "Outdoors" is out. It contains many lavishly illustrated articles descriptive of natural beauty spots throughout the country. To the motor tourist seeking an interesting objective it is of special value. The scenic pictures are numerous and beautiful, and the text is of unusual interest. Readers who cannot find "Outdoors" at their local news stands may secure a copy of the first number by sending ten cents in stamps or coin to "Outdoors," 425 Tenth St. N. W., Washington, D. C.

## GRAYLING WINS DOUBLE HEADER

GAMES ABOUT BEST OF SEASON

Grayling defeated the fast Wenonahs of Bay City in two games of base ball Sunday and Monday which were featured by very fast playing on both sides. Grayling getting the breaks of the games in hitting at the right time.

Johnson pitching for the locals on Sunday was at his best, giving the visitors 4 hits, and he struck out twelve men, while Grayling got to Troike and Flemming for 11 hits, the game ending in a score of 5 to 4.

Monday's game was a good game of ball in which both teams hit the ball hard, the Bay City boys getting 14 hits for 4 runs, while Grayling got 11 hits for 5 runs. Flemming who was on the mound for the Wenonahs pitched air tight ball until the 8th inning when he weakened a little and the locals registered 6 hits for 5 runs. The score up to this inning stood 3 to 0 in the Wenonahs favor and altho the locals worked hard it looked as though they would have to take their first shut out of the season. Grayling's heavy end was up and they made good with their last chance at bat, and made their score—5, which seemed to be a lucky one, as it was the same as the day before. "Babe" Laurent, who was dishing them up for the locals was hit rather hard but kept the hits scattered.

McKay and LaCombe were the heavy hitters for the visitors, getting 7 of the hits between them. The Wenonahs showed a better brand of ball than most teams that have played here this year and will be a good drawing card when they come here again.

The crowd was small at both games and the local management lost money on the two games, besides those who did not attend missed two of the best games of the season.

### CRAWFORD COUNTY'S STATE TAXES.

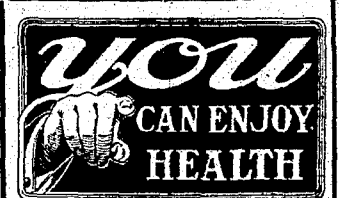

Whether or not Governor Alexander J. Groesbeck is responsible for the State tax reduction as it pertains to Crawford county, we think it is but fair to give our readers the figures that are given by the audit department of the administration.

They are as follows:

Year	1921	1922	1923	1924
\$12,869.86	10,155.60	9,291.68	6,894.75	

Notice is hereby given that a General Primary Election will be held in the town hall in Grayling on Tuesday, Sept. 9th, 1924, for the purpose of placing in nomination by all political parties participating therein, candidates for Senatorial, State, Congressional, Legislative and County offices. The polls of said election will be open at 7 o'clock a. m. and will remain open until 5 o'clock p. m. with the exception of one hour from 12 m. to 1 p. m.

Alfred Hanson, Township Clerk.

## POLITICS FROM THE SIDE LINES.

By O. P. S.

Primary election is next Tuesday, Sept. 9. Nobody will deny that it is an important one. What the result will be depends upon those who do the voting. There will be a large vote out, but a larger voting population will remain at home.

Who will be elected?  
Hal Smith, Tussing, Couzens and Tuttle for U. S. senator. Four candidates. Couzens will probably be nominated. The balance of the votes being scattered between the other three. Tuttle bids fair to be a close second and we believe may have a chance to beat the Senator. Couzens' hoarding of about 65 million dollars in tax-exempt bonds will cost him many votes. His wet stand will probably gain for him about as many as he will lose.

It looks as tho Groesbeck will be nominated for governor. About 40 per cent of the votes of the state he will get apparently. There are six other candidates to split the other 60 per cent.

Geo. Welsh looks strong for lieutenant governor. He is well known and his stand on the re-apportionment measure should make him popular in Wayne county, which is always to be desired in a state election.

For congress it looks as tho George Lust would give Roy Woodruff a hard run. Woodruff is not popular with the Republicans. He is not a Coolidge Republican (except for election purposes) and will be of little help to the administration if elected. He has strong active opposition in Mr. Lusk, a progressive statesman, able and square. The spirit of cleaning up on the old congressmen seems to be popular in this campaign.

For State senator—Senator Karcher of Rose City is opposed by Wesley A. Chase, also of Rose City, and Arthur J. Firth of Standish. Senator Karcher should be popular in this part of the senatorial district but it appears that he has brot upon himself a lot of opposition here in Crawford county by his lack of assistance and even interest in the legislative bill in the last session to designate proposed cross-state highway, connecting the county seat cities of Traverse City, Kalkaska, Grayling, Mio and Harrisville. The vote in Ogemaw county will be split up among largely the two home candidates—Karcher and Chase. Firth will very likely receive a heavy vote in his own county—Arenac. Much depends upon the candidate selected by the voters of the western counties of the district. They may be for Karcher; probably won't be for Chase, and may be for Firth. Here in Grayling the sentiment is turning strongly toward the latter. We presume Karcher will be nominated, but will not be surprised if Firth would beat him out.

This completes the list of contests for the district offices. In the county there are three contests—for sheriff, for clerk and for treasurer. J. E. Bollenmeyer and William H. Cody are fighting it out for sheriff. Each feels confident.

Clarence Johnson for clerk, whose name appears upon the ballot, will be opposed by Herbert J. Smith, Jr., running on slips.

For county treasurer there is a contest between Edwin S. Chalker, the present treasurer, and Efner Matson. Both may be depended upon to put up a hard fight.

This is a brief resume of the contested nominations that appear on the Republican ticket. We have tried to give our readers the benefit of such information as we have been able to gather relative to the chances of some of the candidates to win. We would rather leave it to our home readers to make their own prognosis about the county candidates.

There are to be no contests whatsoever on the Democratic, Prohibition, Socialist, nor the Socialist Labor tickets.

Get out and vote. Don't stay at home and leave it for other people to select our important officers. Take a little time and attend to this patriotic duty. You owe it to the government that protects your home and your person.

## REPUBLICAN COUNTY CONVENTION.

The Republican electors of Crawford county will meet in convention at the Court house in the Village of Grayling, on Wednesday, September 17, 1924 at one o'clock in the afternoon for the purpose of electing two delegates to attend the Republican State convention in the city of Detroit on September 24, 1924, and for to transact such other business as properly may come before it.

The several townships are entitled to the following number of delegates to-wit: Beaver Creek 2; Fredrick 3; Lovells 2; Maple Forest 2; South Branch 2; Grayling 16.

Dated at Grayling Aug. 18, 1924.

By Order of the Republican County Committee.

John J. Niederer, M. A. Bates, Secretary, Chairman.

## U. S. TAX REVENUE INCREASED IN 1924

TOTAL OF \$2,796,179,257.06 IS GOVERNMENT INCOME FOR FISCAL YEAR

### NEW YORK DISTRICT PAYS MOST

First Michigan District Second in Grand Total and First in Auto Tax Collections

Washington—Taxes collected from the country as a whole in fiscal 1924 exceeded fiscal 1923 by \$174,334,029.49. The figures for the respective years are: 1924, \$2,796,179,257.06, and 1923, \$2,621,745,227.57.

Income tax collections for 1924 amounted to \$1,841,759,316.80 and for 1923, \$1,691,089,534.56, an increase of \$150,669,782.24.

Internal revenue collections at Detroit, headquarters of the First Michigan Collection district, were second only to those in the Second New York district, for the fiscal year ending June 30, 1924, Commissioner of Internal Revenue D. H. Blair announced this week in a report to Acting Secretary of the Treasury G. B. Winston.

The total for the Detroit office was \$207,131,389.50. This was an increase of 18 per cent over the previous fiscal year. The Second New York District had a total for fiscal 1924 of \$369,753,005.78.

The Fourth Michigan District with the collector's office located at Grand Rapids, had total collections the past year of \$14,248,615.65, an increase over 1923 of 14 per cent.

The total collections for Michigan for fiscal 1924 were \$221,380,005.15, of which \$104,378,390 were from income taxes and \$117,001,615.15 were from miscellaneous sources.

The First Michigan District leads the country in the collections from the tax on automobiles. Six districts were reported as follows:

First Illinois, \$4,513,478.60; Indiana, \$3,621,534.52; First Michigan, \$396,817,013.11; Tenth Ohio, \$6,724,914.97; Eighteenth Ohio, \$12,335,642.01; Wisconsin, \$4,172,377.58.

For the fiscal year 1924 the income and profit taxes in Michigan amounted to \$104,378,390. The increase of 1924 over 1923 was 18 per cent.

### WHEELER TRIAL IS DELAYED

Case Against Candidate for Vice-President Goes Over

Great Falls, Mont.—Trial of Burton K. Wheeler, junior United States senator from Montana, and candidate for vice president on the LaFollette ticket, during the present term of federal court which opened here Monday, became a possibility regarded as remote when Judge George M. Bourquin disqualified himself from presiding in the case.

Judge Bourquin's action places jurisdiction of the Wheeler case with Judge Charles N. Pray, who left Sunday for an absence from the state of a month or more.

Senator Wheeler was indicted several months ago on charges of having, after his election, to the senate, appeared before a government department as an attorney in matters in which the government also was interested.

### ARRESTS FOLLOW KLAN RIOT

Seven Dead, Three Hurt in Latest Outbreak in Herrin

Herrin, Ill.—Thirty-two warrants, charging murder in the first degree, have been issued against alleged participants in last Saturday's pistol battle between alleged Ku Klux Klansmen and anti-klanmen.

Seven men were killed in the renewal of hostilities between factions, after the trial of Carl and Earl Shelton, charged with murdering Constable Caesar Cagle last February, had been nolle prossed by State's Attorney Delos Duty.

In the shooting affray, 5 klansmen, one deputy sheriff and one spectator were killed, three others were wounded.

### DAWES PLAN NOW EFFECTIVE

Owen D. Young Officially Recognized As Agent-General

Paris—The reparations commission has officially declared the Dawes plan in operation. The plan became effective Sept. 1.

The commission officially recognized Owen D. Young as agent-general. Young and his associates, the other officials appointed by the reparations commission—M. Delacroix of Belgium, Signor Nogara, of Italy, and Andrew MacFadyan, of England, will leave for Berlin Wednesday, to receive the first payment of 20,000,000 gold marks.

## World's Record Equaled by Cotter

First baseman Cotter of the Chicago Cubs equaled a world's record re-  
cently when he accepted 22 chances without an error covering the initial sack  
for the Cubs. Cotter is rated as one of the most dependable players on the team.

### Ty Cobb's New Star

Tyrus Cobb, who grows enthusiastic  
over the Tigers' chances at the least  
provocation, thinks that in Leslie  
Burke he has the best second baseman  
ever to grace a Detroit team, and the  
Tigers of past years have had Ger-  
many Schaeffer, Jim Delahanty, Pep  
Young and numerous other good men  
at the keystone. When Derrill Pratt  
went into a batting slump some weeks  
ago Ty benched him in favor of Burke.  
And the kid has not only fielded well  
but proved himself a fine leadoff man.  
Burke hits from the left side of the  
plate, is fast and covers a lot of ground  
in the field.

### Finnish Star Undergoes Most Careful Training

Finland is one of the few countries  
outside of the United States that sub-  
mits its athletes to long and con-  
scientious training in the carrying out  
of which Paavo Nurmi is one of the  
best examples. For months on end he  
drinks nothing but milk and water  
and all the year round he takes regu-  
lar outdoor exercise, walking six or  
seven miles twice a week in winter  
and running three or four miles three  
times a week in summer.  
After his exercise, like all other  
Finnish athletes he takes the famous  
special Finnish bath "sauna," consist-  
ing principally of steaming and vigor-  
ous rubbing—sometimes with a beat-  
ing of the body with rods until the  
skin has been thoroughly massaged  
and heated.  
The most vital principles of Fin-  
nish training are as follows:  
1—Long distance walking to acquire  
endurance.  
2—A little sprinting to acquire  
speed.  
3—Physical culture lasting 20 min-  
utes a day.  
4—Persistence and tenacity that  
never allow an athlete to forget even  
for a moment the slightest rule of  
training.

he has definitely retired from the ring.

## NOTES FROM THE DIAMOND

Fewer home runs have been scored  
in the major leagues this year than  
in any of the past three seasons.

Pitcher Peterson, a right-hander, ob-  
tained from Rochester of the Interna-  
tional league, has joined Atlanta.

Waldemar Wood, former star out-  
fielder of Swarthmore college, has  
been signed by the St. Louis Cardinals.

Frank O'Rourke, shortstop of the  
Toronto International league club, was  
sold to Detroit for the reported price  
of \$25,000.

Three players have been traded by  
the Washington Senators to the Sacra-  
mento Coast league club for Out-  
fielder Earl McNeely.

Pitcher Adrian Lynch has been ob-  
tained by Denver from Minneapolis of  
the American association. He is a  
former Western league star.

Ralph Stewart, who has been pitch-  
ing semi-pro ball in Alabama, has been  
signed by Birmingham. He will not  
be required to report until next season.  
He is a former Auburn athlete.

Left Fielder Hulnes, sent to Louis-  
ville by the New York Americans in  
the Earl Combs deal, has retired from  
baseball and entered the cigar manu-  
facturing business with his father.

Pitcher Riever, a right-hander,  
who made a fine showing in the few  
games he pitched for Fort Smith, has  
been unable to reach satisfactory  
terms with the Twins, and has gone  
home.

Happy Campbell is back with Fort  
Smith. Released earlier in the season  
as a free agent the pitcher was ready  
to answer the summons when Man-  
ager Marr sent out a call for flinging  
help.

Mike Ciresi, third baseman of the  
Springfield Minutemen, has been volun-  
tarily retired for the remainder of the  
season to enable him to go to his  
home in Mayfield, Ky., and recover  
from injuries suffered several weeks  
ago.

Rochester has recalled Pitcher Jack  
Williams, who has been with Quebec  
of the Q. O. V. league.

Outfielder Russell Scarritt of John-  
son City of the Appalachian league has  
been purchased by Atlanta. He has  
been with Johnson City two seasons.

Monroe Mitchell, right-handed pitch-  
er, may be lost to the Chicago for the  
season. Mitchell's sore arm that kept  
him out of the game has not respon-  
ded to the rest cure.

Pitcher Charlie Ollinger, a right-  
hander, has been sent to the Harris-  
burg club of the New York-Pennsylva-  
nia league by the Robins under an op-  
tional agreement.

St. Paul is said to have started ne-  
gotiations with a view to playing the  
team which wins the championship in  
the Pacific Coast league. Some of the  
other teams figure such a move is a  
swell way to fix a pennant contender.

Art Treitz, a young catcher from St.  
Louis, is doing fine work for John Mc-  
Closkey at Blackwell, where the New-  
ton club was recently transferred.  
Sam Ginzler is another McCloskeyite  
who is playing a fine game. He is a  
second baseman and more may be  
heard from him later on.

Armando Marsans, former big  
league, quit as manager of the El-  
mira (N. Y.) club. Marsans was one  
of the most famous Cuban ball  
players.

The purchase of Dave Harris, a  
hard-hitting outfielder with the  
Greensboro (N. C.) club of the Pied-  
mont league, is announced by Man-  
ager Fred Mitchell of the Boston Nat-  
ionals.

After winning ten consecutive games  
Hobbs Thurston, the young White Sox  
pitcher, was tripped up by the Yanks.  
A homer by Babe Ruth helped to  
do it.

Bob Connery, New York Yankee  
scout, is touring Texas, watching play-  
ers. He has his eye on Pitcher Na-  
gent, right-hander, of Temple. Nugent  
is nineteen years old.

The princely sum of \$120,000 will  
be added to ten stake events to be  
run during the fall race meetings at  
Latonia and Churchill Downs, accord-  
ing to the Kentucky Jockey club's pro-  
gram.

## STRAIGHT LINES REMAIN VOGUE; SIMPLICITY IN EVENING FROCKS

LIKE the Greeks bearing gifts, come  
the new tailored and daytime  
frocks for fall. They are in an inspir-  
ing company bringing pleasing varia-  
tions of the slim, straight dress that  
still holds the allegiance of fashion-  
able womanhood and they inform us  
of certain points which stylists insist  
upon. On some of these points they  
all agree: they have long sleeves, they

Tailored Frock Has Distinction and Charm.

are simple (or seemingly simple), they  
are from twelve to fourteen inches off  
the floor, they approve the tunic and  
panels and countenance belts or belted  
effects—but no waist line, some of  
them are slightly draped and all of  
them make a point of a neatly tailored  
finish.  
For decorative effects these daytime  
dresses are given to rows of small but-  
tons and to bands and other motifs, in  
outline embroidery, sparingly used.

Evening Gown Along Simple Lines.

Ties of narrow ribbon and very ample  
ones of wide ribbon or silk often com-  
plete them. Sleeves are either close  
fitting or flaring, and the former are  
usually found in the company of gaus-  
let gloves. The apex of good style is  
attained when a cape or coat to match  
is provided, but a scarf and the small  
hat are the most popular companions  
of the tailored frock. As the season  
advances fur scarfs will replace those  
now worn, of silk or wool.  
A clever frock of dark tulle, enlivened  
by embroidery carefully placed,  
is shown in the picture. It has a nar-  
row belt of the material across the  
back where the skirt shows a little  
fullness. The long, straight piece at  
the back, simulating a cape, may be  
detached, or worn as a scarf.  
There is no getting away from the  
fact that women are disinclined  
to change from the straight-line sil-

come and go. Just now a cluster of  
flowers posed on the left shoulder—  
or near it—is the most approved fin-  
ishing touch. Natural flowers are  
worn in the daytime and artificial ones  
at night.  
Fringes of silk or of ostrich feath-  
ers of clipped ostrich or of man-  
about (dyed to match the material of  
the dress) flourish in the smile of  
fashion, for trimming more or less  
formal silken frocks. One of these,  
suited to afternoon or evening wear,  
is shown in the picture. The wearer  
may tone it up for evening with a bou-  
quet at the shoulder and select a hat-  
ever color pleases her for the frock.  
Such a dress makes a fine background  
for a handsome necklace in "daytime  
jewelry" or whatever treasured piece  
its owner may choose to pose upon it.

**Beaded Overblouse**  
An overblouse that is decidedly dif-  
ferent is made of white crepe de chine  
with large appliques made of pink beads  
with green beaded leaves scattered at  
intervals over the entire surface. The  
neck and hem are outlined with a  
band of turquoise blue beads.

**Dotted Swiss and Net**  
An extremely durable trimming for  
young girls' dresses of colored dotted  
swiss consists of bands of white net

put on as hems and around the neck  
and sleeves. The effect of fragile love-  
liness is quite misleading, as the net  
both wears and washes beautifully.

**The Traveler's Aid**  
A thick plate of sewing silk of every  
possible shade is a great convenience,  
as single threads may be drawn out  
without any difficulty. Travelers will  
find this a much easier way of carry-  
ing mending materials about with them.

## Your Bank Balance and the Concrete Silo

A good silo means a good sup-  
ply of succulent fodder. That, in  
turn, means more and better milk  
during the winter months. And  
you know how that helps to fat-  
ten your bank balance.

A Concrete Silo is a good silo  
all the way up and all the way  
'round. It is fireproof. It is wind-  
proof. It is built to last.

Reasonable in first cost, and  
free of maintenance expense, it is

### HOW ABOUT YOU?

When Abraham Lincoln was a young man he ran for the legislature of Illinois and was badly swamped. He next entered business—failed—and spent seven years of his life paying up the debts of a worthless partner. He was in love with a beautiful woman to whom he became engaged—and then she died. Entering politics again he ran for Congress and was badly defeated. He then tried for an appointment in the United States Land Office, but failed. After this he became a candidate for the United States Senate and was defeated. In 1856 he became a candidate for the vice presidency, but lost the race. In 1858 he was once more defeated, this time by Douglas. In the face of all this, he eventually became one of the country's greatest men, if not the greatest. How would you stand in face of such setbacks? Think it over.

### FIND CHILDREN GROW FASTER IN THE FALL

#### Maximum Gain Between August and September.

New York.—Children between the ages of four and thirteen, both girls and boys, grow faster and better during August and the three following months than at any other period of the year, according to results of careful study into the question of child nutrition by the New York Association for Improving the Condition of the Poor.

Boys make 55.3 per cent and girls 50.8 per cent of the total yearly growth between August 1 and December 1. The period of maximum gain is in the late summer and early fall, and the period of minimum advancement falls in the late spring and early summer.

While the same tendency holds for both boys and girls, it is most marked among the girls.

The following table gives the average gain in pounds by months and the percentage of the annual gain made in each of the months of the year:

Months	Boys	Girls
January	3.7	3.3
February	5.1	4.3
March	4.8	5.6
April	5.4	5.3
May	2.7	2.8
June	.8	1.3
July	2.8	3.5
August	13.2	12.5
September	14.1	10.6
October	10.0	10.6
November	8.4	9.9
December	5.1	6.3
Total yearly	67.4	64.1
Average monthly	5.6	5.3
in May the girls showed an average loss of .05 pound. This is equivalent to 0.8 per cent of the total gain.		

The report says: "The rate of growth in both height and weight over a given period of time is quite as important in judging a child's state of development as his attained stature and weight at any given period. Physicians, teachers, school nurses and nutrition workers must rely on the gains made during short periods of from three to six months to determine whether the child is doing well, for obviously all healthy children must be expected to gain steadily in both height and weight."

### Winning Glider Built of Scrapped Wire and Tin

Koenigsberg, Germany.—Old broomsticks, baling wire and scraps of tin salvaged from milk and bully beef cans were chiefly used in constructing the glider in which Ferdinand Schulz in an experimental flight remained in the air eight hours forty-two minutes and eight seconds and thereby established a world's record for heavier than air machines without motors.

The plane was constructed by Schulz during odd moments when he was not busy teaching a school class here in east Prussia, which is his home. The flight took place at Rossitten.

Schulz appeared last year with a glider made of hop poles and scrap tin, but his machine was rejected by the technical committee and he was not allowed to compete in the meet on the theory that it was unsafe.

Schulz says he could have remained in the air much longer had he made proper preparations for an extended flight. He had neglected to take along gloves, and was in his shirt sleeves; toward afternoon he felt the cold keenly. Finally, he says, he became so hungry that he decided to land and as he did not have a watch with him, he was most surprised when informed he had established a record.

### American Cities' Debts Grow Billion a Year

New York.—The bonded indebtedness of municipalities of the United States continues to increase, and new securities are being issued at the rate of about a billion dollars annually, according to a commentary upon the debt of more than two hundred cities by C. E. Righter, chief accountant, Detroit bureau of government research. A tabulation gives the classified debt of the various cities, the net bonded debt and the per capita debt on January 1, 1924.

The average per capita debt of all cities of 2,500 or more is \$70.80, but the per capita debt ranges from \$258.62 for Norfolk to \$10.99 for Quincy, Ill., omitting Washington, D. C., which has only a few old bond issues outstanding. The per capita indebtedness in general is below that of thirteen principal Canadian cities, in which it ranges from \$93.65 in Edmonton, Alberta, to \$112.02 in Hamilton, Ontario.

### Efficiency in Use of Fuel Shows Increase

Washington.—Efficiency in use of fuel by public utility power plants has increased 33.13 per cent in the last four years, according to a statement issued by the Department of Interior, which shows that a ton of coal in 1919 produced 625 kilowatt hours of electricity, compared with 835 hours in 1923. The total amount of electricity generated increased in this period from 39,000,000,000 kilowatt hours to 55.7 billion kilowatt hours.

**To Climb Canadian Peaks**  
 Edmonton, Alberta.—An attempt to scale Mount Robson will be made this summer by the Alpine club of Canada. Arrangements also are being made for an expedition to scale Mount Logan, Canada's highest peak, in 1925.

**Sea-Hares for "Spider in Cup."**  
 Sea-hares, small sluglike mollusks, were notorious among the ancients for their supposed venomous properties and were often used as ingredients of poisonous potions.

## Use Red Crown

The High-Speed Gasoline

## For Perfect Motor Response

The willing start, the leap ahead, the noiseless regularity of the piston stroke, the steady purr of a satisfied engine—all these lie in Red Crown, the BETTER motor fuel.

The finer shades of Red Crown performance are due to its perfect chain of boiling point fractions. Red Crown begins to vaporize at a very low temperature, with consequent prompt and easy starting, summer or winter. Red Crown vaporizes steadily throughout the entire stroke of the piston, thus yielding smooth and rapid acceleration and maximum mileage.

Red Crown service lies in this wide flexibility. It is an ideal fuel—it not only moves the car, but it gives the driver a sense of perfect control—a thrill of power—an exhilaration due to instant and eager response.

Red Crown service represents the ideals of the Standard Oil Company (Indiana) carried into performance. It yields more power—greater economy—more mileage—manifesting in all these the aim of the Company to provide a better motor fuel.

It is available everywhere—and everywhere the same—to the man who buys 1 gallon or 1,000 gallons.

### Your Vital Records Should Be Protected

Every business man has records that deserve careful protection because they cannot be replaced. Insurance does not cover them. The work that took years to build up may be lost in a few hours. And no one can know when fire will visit them. It is comfortable to know, however, that there is a Macey Safe of proper size and degree of fire protection to take care of your records. Now is the time to give careful consideration to this serious subject. Drop into our store and see our display—or a phone call will bring our salesman with the whole story if you prefer.

Mr. and Mrs. John L. Stoelker, who have been enjoying the summer months camping at Lake Margrethe have returned to Saginaw.

Earl Barber, Lloyd Welsh and Bernard Callahan, all of Frederic were arraigned before Justice Kraus Wednesday, charged with assault and battery. It appears that the three had shown hostility over the burning of a cross by the Klan in Frederic Monday night and proceeded to shoot it up. Barber pleaded guilty and admitted he fired two shots; Callahan, represented by counsel, declined to plead. Welsh pleaded guilty but claimed he fired no shots. Justice Kraus refused to accept the latter's plea of guilty and ordered trial. Callahan and Welsh will appear for trial Wednesday of next week. No testimony was taken. Alvin LaChapelle and Dell Weir, it was claimed in the complaint and warrant, were the injured persons.

## Michigan Happenings

Two men were killed and 12 injured in an explosion of alcoholic liquors in Vinewood police station at Detroit. The explosion occurred in a cell outside the main cell block. The liquor was stored in that cell because the station has no regular store room. All prisoners in the main cell block were deluged with liquor, which almost immediately took fire, according to one of the injured men. A sea of fire cut the men off from rescue, and officers outside the cell block stood helpless until fire apparatus arrived and quenched the flames.

That Patrolman Walter Tippet, who shot and killed Oscar Lampi, 20 years old, of Deerton, who shot and killed Chief of Police Martin Ford, his 19-year-old son Lloyd, and Patrolman Thomas Thornton, was "fully justified under the circumstances of the case and should receive the respect of all good citizens," was included in the verdict reached by a coroner's jury at Marquette. Lloyd Ford, the 19-year-old son of the chief of police, died in St. Mary's hospital where he had been taken after being shot by Lampi.

Harold R. Taylor has filed a claim with the city commission against the city of Port Huron for \$30,000 in connection with the death of his wife, whom he alleges was exposed to smallpox while a patient in the Emergency hospital where she was a confinement patient. The hospital is operated by the city.

County Agent C. P. Milham has arranged a series of motion pictures for the farmers of Ottawa County, showing the various established methods of dairying. The pictures will be shown at convenient places.

An investigation by state inspectors resulted in the arrest at Coopersville of Harold Wirth, superintendent of the local plant of the Thomas Dagart Canning Co., on a charge of employing minors. Wirth entered a plea of guilty and was fined \$10 and costs.

Malcolm J. McLeod, 56 years old, former collector of internal revenue, Detroit, and father of Congressman Clarence J. McLeod, is dead. McLeod came to Detroit in 1891. Beginning as a conductor on a horse car line, McLeod soon became business agent for his fellow-workers and held this position until 1901, when he was elected to the state legislature for two years. In 1904 Governor Fred M. Warner chose McLeod as labor commissioner, a post which he occupied until 1907. His appointment as collector of internal revenue was his last political office, relinquished at the close of the Taft administration.

The Menominee river hydro-electric plant of the Ford Motor company at Iron Mountain, furnishes one-tenth of the 60,000-horsepower generated by the eight Ford hydro-electric power units, figures made public by the Ford company show. The Iron Mountain unit produces 10,000-horsepower, the report shows. It is second in the list of eight, which is topped by the Twin Cities unit, with 24,000-horsepower. The Green Island, N. Y., unit ranks third with 9,650, and the Plymouth, Mich., unit is lowest, with only 40-horsepower.

The State tax this year will be \$14,600,000. It was tentatively decided by the State Administrative Board. It will be the lowest levy since 1913, when the figure was \$9,108,210, and marks a further decline from the peak levy of more than \$20,000,000 in 1921. In 1922 it was in excess of \$17,000,000 and last year was more than \$16,000,000.

William G. Sterling, 76 years old, of Monroe, known throughout the Great Lakes as the "old commodore," died of injuries suffered when his automobile was hit by a Monroe street car as he was crossing the tracks. The automobile was hurled against a telephone pole and Sterling's skull was fractured and he received internal injuries.

Capt. Robert E. Ellsworth, Alpena, of Michigan Patrolboat No. 1 flagship of the State patrol fleet, is having the cruise of his life. He has aboard a brother whom he had not seen in 45 years. The two were separated when the captain was 15 years old and his brother was 10.

## NEWS REVIEW OF CURRENT EVENTS

### Ku Klux Klan Denounced, Defeated and Threatened With Machine Guns.

By EDWARD W. PICKARD

IN ONE way or another the Ku Klux Klan was an important feature of the news of the past week. Here and there over the country the sheeted organization was denounced, defeated and threatened with machine-gun fire. Taking up the challenge issued to President Coolidge and himself by John W. Davis, General Daves went down into Maine, where the Klan is supposed to be a strong element of the Republican party, and boldly condemned it by name, despite the pleadings of the state Republican leaders. Agreeing with the Democratic candidate that the Klan has no proper place in this or any other campaign, Mr. Daves said government could not last if the Klan was the right way to enforce the law, that lawlessness cannot be met with lawlessness if civilization was to be maintained. He softened this a bit by declaring that in the Klan in many localities he recognized an "instinctive groping for leadership toward law enforcement which was not found in cowardly politicians and officeholders." But he said, to inject religious and racial issues into politics was contrary to the welfare of all the people and to the letter and spirit of the Constitution of the United States.

Following the lead of Presidential Candidate Davis, the Democratic state convention of Ohio declared against the Klan by adopting this resolution: "Whenever any organization, no matter what it chooses to be called, whether Ku Klux Klan or any other name, raises the standard of racial or religious belief as a test of fitness for public office, it does violence to the spirit of American institutions and must be condemned by all who believe in American ideals." In Texas the Klan suffered defeat when Mrs. Miriam Ferguson, wife of a former governor who was impeached, won the Democratic gubernatorial nomination in the run-off primary, beating Judge Robertson, who was the Klan candidate, by about 85,000 votes. Here was mainly an anti-Klan campaign, and she says no member of the order will be appointed to office by her, nor will any recent appointees be retained in office if they are known to be affiliated with the Klan. Since her nomination is virtually equivalent to election, Mrs. Ferguson will be the first woman to hold the position of governor in the United States. Republican leaders in Texas, who say their party there has always been anti-Klan though tolerant, will try to make prohibition the issue and profess to see a chance to elect a governor.

Kluxers of Michigan set up their fiery cross and held meetings on a hill within the boundaries of Camp Custer Military reservation with the apparent intention of gaining recruits from the 7,000 men in military training there. Brig. Gen. George Van Horn Moseley, camp commandant, was aroused to wrath and issued an order forbidding such meetings and warning the men of the camp to keep away from them. He directed that the hill be covered with machine-gun fire and that it be swept with bullets if another meeting of the Klan were held there.

Henry Ford was quoted last week by the Montreal Star as saying that the Klan is the victim of lying propaganda and if the truth were known it would be looked upon as a body of patriots concerned with nothing but the future of the country and the supremacy of the true American in his own land. Mr. Ford, who was on his yacht en route to Detroit, at once denied positively having made these statements and asserted he had given no interview to anyone while in Montreal and had not discussed the Klan.

SENATOR NATHANIEL B. DIAL, of South Carolina was defeated for renomination in the Democratic primary.

Indians in League of Nations to End War. Washington.—Iroquois Indians beat the League of Nations to it by four centuries. That is what J. N. B. Hewitt of the bureau of American ethnology of the Smithsonian Institution discovered through research of the "League of the Five Nations," which held sway in the New York country when America was young. He has just returned to Washington from further investigation of the organization, of which a remnant exists today in the province of Ontario and the state of New York.

As the Indians of old left no written records, Mr. Hewitt had to depend on tradition, as embodied in ritual. So far as the present is concerned, 6,000 Indians at Brantford, in Ontario, keep alive the league, under arrangement with the Canadian government, and three small reservations in New York state more or less closely follow the old league regulations.

marley by both former Gov. Cole L. Blease and Representative James F. Byrnes, who will have to have a run-off primary.

In Montana the returns to date from the Republican primary indicate the nomination of Frank Linderman for senator and Joseph M. Dixon for governor.

SENATOR WHEELER, vice presidential candidate on the LaFollette ticket, planned to open his campaign September 1 with a speech on Boston common. But he was notified that he must be in Montana that day to face trial on the indictments charging him with misuse of his senatorial office. The LaFollette-Wheeler leaders were infuriated, and Chairman Nelson declared the action of the Montana district attorney was "a clear indication that the Department of Justice is to be used as an adjunct of the Republican committee in this campaign."

FRANCE'S signature to the London agreement for putting the Dawes plan in operation was authorized by both the senate and the chamber of deputies, the opposition being in a hopeless minority. M. Poincaré, though attacking M. Herriot severely on several points, supported the premier on the main question of accepting the agreement. In Germany the prospect was not so rosy, for the government could not see its way to obtaining the two-thirds vote necessary to pass the Dawes bill in the reichstag, unless the Nationalists permitted defections in their delegation. The Communists disrupted the debates with riotous actions and the president of the reichstag was compelled to call in the police. The Socialists and bourgeois parties are eager for a dissolution of the reichstag, but the calling of new elections would greatly retard ratification of the Dawes plan and cause serious economic and political troubles in Germany.

Owen D. Young has gone to Europe to take the position of temporary agent general for reparations, and it is understood the permanent agent general will be S. Parker Gilbert, former undersecretary of the treasury. Rufus C. Daves, of Chicago, brother of General Daves, has gone across to help put the Dawes plan in operation.

LEUTENANTS SMITH AND NELSON early last week made the short hop from Fredericksburg to Fyrit, Greenland, and prepared their planes for the last flight over the sea, to Indian Harbor, Labrador. Lieutenant Locatelli of Italy and his companions, who were lost on the flight from Iceland to Greenland, were found by the American cruiser Richmond three days later, floating in their plane 125 miles off Cape Farewell. They were uninjured, but the plane was so badly damaged that Locatelli asked that it be destroyed.

First test flights of the ZR-2, built in Germany for the United States, revealed serious defects in the huge Zeppelin's engines. It may be necessary to install a new set of motors before the airship starts across the Atlantic. In other respects the trials were quite satisfactory.

DISPATCHES from Shanghai said that city, hitherto immune from the fighting of the civil warfare in China, was about to be the scene of a battle between the rival armies of Kiangsi and Chekiang provinces. Foreign residents were calling for gunboats and munitions, though it was not believed they would be molested. Presumably the row is due to the plan of Gen. Wu Pei Fu, war lord of Chihli, to oust the governor of Chekiang as a preliminary to attacking Chang Tso-Lin, his rival.

ALTHOUGH the Soviet government always has ample funds for propaganda purposes, and although it has been exporting wheat for some time, it is likely that soft-hearted Americans will soon be asked again to give their money to save Russians from starvation. The Moscow government, it is reported, admits this year's crop failure involves 60 per cent of the planted area and that a famine as bad as that of 1921 is imminent. Unofficially, the blame for the situation is laid to exorbitant taxes, forced loans, monopoly of commerce and the artificial deflation of agricultural values.

These are the Onondaga reservation near Syracuse, with 503 Indians; the Tonawanda reservation, near Akron, with 630 Indians, and the Tuscarora reservation, near Lewiston, with 876 Indians. The preservation of peace was the objective of the league of the five nations. The Mohawk, the Onondaga, the Oneida, Cayuga and the Seneca, tribes of Iroquoian blood, established the league, and planned to bring into the federation, in time, all known tribes of men as allies.

POST OFFICE INSPECTOR WILLIAM FAHY, one of the most famous thief catchers in the government employ, who has been stationed in Chicago for several years, is himself in jail accused of being the "inside man" in the \$2,000,000 mail robbery which was perpetrated at Rondout, Ill., on the night of June 12. The robbers on that occasion shot and killed one of their own band, and several of them were caught. Others escaped, and it is believed by the authorities that they have been watching Fahy that he divided the loot with them.

OSWALD GARRISON VILLARD, editor of the Nation and one of the most obnoxious of the so-called "intellectuals" of America, stirred up a hornet's nest in the Institute of Politics at Westminister, Mass., by a speech in which he charged that the United States government aids American bankers and capitalists to exploit weaker countries, especially in Latin America, by supporting loans and investments with the use of military forces "controlled by politicians without principle." He declared: "The blood of 3,000 Haitians slain by our American marines and of the 400 dead in Vera Cruz, mostly women and children, dishonors our good name, especially when involved with so sordid a business as debt collection."

Rear Admiral Harry Huse, retired, indignantly replied: "I have been 50 years in the navy and have never known a case where the navy was sent to collect a debt. The statement that 3,000 Haitians were killed by our marines is outrageous. It is not true. When charges like these are made against our gallant forces they should be sustained by more than a mere statement." He added that the statement that the Americans killed women and children at Vera Cruz was a lie. Villard said he got his information from men on both sides, one of whom was an American admiral, but he declined to give that individual's name. Rear Admiral Hilary P. Jones also denied the truth of the statements made by Villard, toleration of whom is one of the crimes committed in the name of liberty.

ANOTHER of the great packing companies—Wilson & Co. of Chicago—is in trouble. Last week it was put in the hands of receivers by the United States court in New York where it is incorporated. Its operation will be continued by them. For some time bankers, lawyers and representatives of the \$121,000,000 company had been trying to work out a plan of financial reorganization without recourse to the courts and they had made substantial progress when a small stockholder-upset their work by having a temporary receiver appointed by a New Jersey court.

PRESIDENT COOLIDGE announced the appointment of Edgar Addison Bancroft of Chicago as ambassador to Japan and of James Rockwell Sheffield of New York city as ambassador to Mexico. Mr. Bancroft is a graduate of Knox college and Columbia university, an eminent lawyer and an author. He succeeds Cyrus E. Woods, who resigned in June. Mr. Sheffield, who takes the post made vacant by the resignation of Charles B. Warren, also is a distinguished lawyer and writer, has served in the New York legislature and is a former president of the National Republican club. He is a graduate of Yale and of Harvard law school.

SECRETARY OF COMMERCE HOOVER has issued a call for the third national radio congress to meet in Washington on September 30. Among the questions to be considered are: Interconnection of broadcasting stations for the handling of national events; revision of the present frequency or wave length allocations to reduce interference; use of high frequencies or short waves; classification of broadcasting stations, possible discontinuance of class C stations; limitation of power, division of time, zoning of broadcasting stations; means for distinguishing the identity of amateur calls from foreign countries; interference by electrical devices other than radio transmitting stations; relations between government and commercial services.

Use of Silver Dollars Increased. Washington.—The silver dollar or "cartwheel" as it is commonly called will soon be more generally in use in the eastern states than heretofore, the United States treasury department having initiated the program of distribution today by placing one such coin in the pay envelope of each several thousand government employees here. It has been estimated that the upkeep of paper money costs the government around 3 per cent of its total face value.

## Daddy's Evening Fairy Tale

BY MARY GRAHAM BONNER

### THE FLY'S WARNING

"I suppose you want to know how I do it," the Fly told the Fairy Queen. Now you may think it is strange that the Fairy Queen should have gone to pay a visit upon the fly.

Not that the Fairy Queen was one to think herself superior, she was as simple and sweet as could be. But she did not care for flies, and yet she had gone to call on one.

She did not pretend to the fly that she liked him. She did not say that she was glad to see him and then go back to Fairyland afterward and talk about him.

That would have been deceitful and the Fairy Queen hated deceit.

No, she told the fly she had come to see him because she wanted to find out how it was he did so much harm so she could send around messages and make people see how it was.

"Yes," the Fairy Queen said, "I would really like to know how you do it."

"You know it is quite true that you do spread disease. You are one of the worst creatures I know as regards doing this very bad work."

"Well," said the Fly, "I am a Blue-Bottle Fly, and I must live up to the family record."

"What is the family record?" the Fairy Queen asked.

"Spreading just as much disease as is possible wherever we are and keeping on doing it."

"I shouldn't think that would be a record of which a family could be proud."

"Ah, but you're not a Blue-Bottle Fly, and you don't understand."

"Your thoughts are kindly. You like to see health all about."

"We don't. We don't mind how much sickness there is. We don't object at all."

"In fact, we like it."

"Well, I will tell you how we do it. We have many, many hairs on our bodies."

"You cannot see the hairs on my body, as I'm small, but if you look carefully you will see some of them."

"You Are One of the Worst Creatures I Know."

If you could see me through glasses which would make me look much bigger than I am then the hairs would stand out distinctly."

"I have glasses with me," said the Fairy Queen, "which enlarge small objects."

"Then take a look at me," said the Fly.

The Fairy Queen did this, and she saw small hairs all over the Fly's body.

"There are a great many," the Fairy Queen said.

"To be sure," said the Fly.

"That is how I do it," the Fly continued.

"Still I don't understand that," the Fairy Queen said.

"I go around," said the Fly, "and I collect dirt wherever I go."

"Perhaps I should say these hairs collect dirt. They just catch up dirt and sit upon food and I carry the dirt with me."

"There are such small pieces of dirt that they're not noticed, but dirt carries disease, and so I carry disease."

"Of course it is not always dangerous, but I am not what you might call a valuable citizen."

"If I were being fair to people I would warn them not to let flies be around any more than they can help. I would warn them of my hairs which collect and carry dirt, and I would tell them that we're their enemies in this way."

"But I'm a Fly, and I don't care, so I won't warn them."

"Ah, but I will, Fly," said the Fairy Queen. "I will send around my messengers with this warning and will tell them about the way you gather dirt and spread disease."

But the Fly had gone off. He had no more to say and he had plenty of other things to do more interesting than this.

### Certainly Suitable

After the usual Saturday romp the children gathered in the drawing room for some music.

As bedtime drew near the mother said, "Now children, choose a hymn to finish up with and then you must all say good night."

"Let's have 'Ere Again Our Sabbath Close,'" said a little girl of seven.

"Well, I think that would be more suitable for tomorrow night," replied the mother.

"Oh, but we always air our Sabbath clothes on Saturday," said the child.

George L. Lusk  
FOR CONGRESSMAN  
Tenth District of Michigan

Mr. Lusk has held important public offices and as a public servant his motto has ALWAYS been—

"A PUBLIC OFFICE IS A PUBLIC TRUST"  
Mr. Lusk seeks the position as a Republican in complete sympathy with the platform of his party and the leadership of President Coolidge.

The President is powerless without the sincere co-operation of members of his party. The highest welfare of the country demands this unity of action by the party in power.

Mr. Lusk will zealously promote legislation effecting all interests in the Tenth District, the sugar beet industry being one of the most important.

Every person will receive fair and honest consideration at the hands of Mr. Lusk.

A vote for him is a vote for safe and sane legislation.

Mr. Lusk has lived in Bay City for half a century, is a property owner and taxpayer and vitally interested in the welfare of the people he seeks to serve.

I wish to announce to the voters of Crawford County, That I have definitely entered the race for the office of County Clerk on the Republican ticket.

Owing to a misunderstanding on my part my petition was not filed in time for my name to be placed on the ballot. Therefore it will be necessary for the voters who desire to cast their vote for me in the Primaries to affix a slip with my name printed on it in the vacant space on the ballot and make the usual X in front of same. A sufficient number of these slips will be distributed before election to all registered voters of this County.

Thanking you in advance for your support, I remain,  
Yours sincerely,  
Herbert J. Smith, Jr.

ROY O. WOODRUFF  
REPUBLICAN CANDIDATE  
FOR  
CONGRESS

AS YOUR REPRESENTATIVE IN CONGRESS HE HAS NEVER ONCE VIOLATED THE CONFIDENCE OF THE PEOPLE EITHER BY GOING CONTRARY TO THE PARTY PLATFORM OR HIS OWN CONSCIENCE. WOODRUFF'S WORK

In exposing corruption in the department of Justice and bringing about prosecution of the war grafters—

In liberalizing the rules of the House of Representatives—

In equalizing the income tax reductions to bring greater benefit to those of moderate means—

In providing funds for Federal Aid in the building of good roads—

His activity in behalf of every measure which would afford relief to agriculture.

And his vote on every issue that has been before the House of Representatives in the 67th and 68th Congresses

STAMPS HIM A LEADER—NOT A  
BLIND FOLLOWER.

HIS RECORD IN CONGRESS CHALLENGES ATTENTION. IT IS CLEAN, CUT, CONVINCING IN ITS SINCERITY AND FREE FROM THE INFLUENCES THAT SEEK SPECIAL PRIVILEGE AT YOUR EXPENSE.

## DALE SOUTER FOR GOVERNOR.

Confident that the people will not elect any of the seven Republican candidates for governor active Democrats are placing Dale Souter in nomination on the Democratic ticket. Unless he is nominated the Democratic party fails to seize its opportunity.

Born in Shelby, Michigan, educated in the public schools and University of Michigan (1912), a Methodist and Mason, he is practicing law in Grand Rapids. He was a judge-advocate in the United States army and was special United States District Attorney appointed by President Wilson.

Many Democrats will write his name on the ballot. Others are writing Souter for Governor Club, 802 Hilldale, Royal Oak, Mich., for stickers.—Advertisement.

CANDIDATE FOR MICHIGAN  
UNITED STATES SENATOR

DANIEL W. TUSSING  
(Photographed April 24, 1924)

Successful as Laborer, Farmer, Teacher, Supt. of Public Schools, College President and Business Man.

A farmer in youth. Eighteen years Trustee of a Farm Estate. Placed his daughter and her husband on farm at marriage in 1917. The young man raised fine crops, but gave up the farm because each year brought more debt.

On April 24th, 1924, Mr. Tussing wrote a public letter on the farm problem and its neglect by the national congress.

April 30, 1924, he wrote his views in his campaign platform, which Michigan politicians criticized.

August 20, 1924, his committee published in the Grange Patron his assertion that the farmer is discriminated against by our national policy of economics.

Up to that time farm relief met no encouragement at Washington, and the keynote at the Michigan State Convention denied that there is a serious farm problem.

Is it significant that President Coolidge is now saying the same things in his statements that Mr. Tussing wrote earlier, and declares there is urgent need of a changed national policy for the farmers?

Conclusion: The president, also reared a farmer, whose father is still a farmer, knows more of the farm problems than some Michigan politicians.

Mr. Tussing Not Merely An Aimless Candidate Seeking Promotion.

He has an ideal to which his life has been dedicated for many years. He has a message for the farmer. He believes this question invites the study of men who are capable of bringing things to pass. He resolved long before his candidacy to make this problem an issue in his life.

Mr. Tussing has succeeded along several lines far beyond his original hopes. He can be trusted with national problems that involve the common people. He has fought for the people's interests in his home city, where he has been tested by the offer of money and honor, but couldn't be tempted. He stands firmly for all other Republican issues set forth in his platform.

Over one-third of all the tobacco chewers in the United States have proved that.

The demand for BEECH-NUT Chewing Tobacco alone is more than 250 million packages in a single year

That's because we didn't let tobacco growers, labor, manufacturing costs, State, Federal and revenue taxes collect their increases from the quality or the weight.

BEECH-NUT Chewing Tobacco is the same in 1924 as in 1915. Still the most of the best for 10c—still the best chew at any price—still the favorite everywhere.
